SUMMARY

IT student at UEH with a 3.62/4.0 GPA who designs from field research to tested prototypes. Co-designed a book discovery kiosk whose Figma prototype averaged **95.4 seconds** to complete the flow with 5 users, under a 120-second target, and led product direction for BloomMate, an MVP for independent flower shops. Looking for a UI/UX Designer internship.

EDUCATION

University of Economics Ho Chi Minh City, UEH | B.S. in Information Technology — Expected 2027

GPA 3.62/4.0 • Coursework: Human-Computer Interaction, Web Development and Design, Smart Management Support Systems

UX AND PRODUCT PROJECTS

The Hook | Concept and User Research — 2026

Interactive book discovery kiosk for Nguyen Van Binh Book Street, designed and tested as a group project in a Human-Computer Interaction course.

- Co-designed a kiosk prototype in Figma that averaged **95.4** seconds to complete the flow with **5** users, under a **120**-second target, matching readers with literary characters and guiding them to the shelf.
- Scored **6.4/7** on ease of learning and **6.6/7** on intent to use, with **5 of 5** testers saying they would use the kiosk in a bookstore.
- Narrowed **115** field notes and user interviews into one priority problem, then chose The Hook from **3** storyboarded concepts through formative testing.

BloomMate | Product Manager — 2026

Startup project building a purchasing and waste tracker for independent flower shops, run by a team of 9.

- Set every daily task in the MVP to take under **90 seconds**, with restock under **60 seconds**, by designing features around the flower shop's working day.
- Dropped a value proposition that **0 of 5** interviewed shops needed and refocused the product on waste measured in money, based on **2** interview rounds.
- Defined pass criteria for a **3-week** pilot with 5 shops: daily close-outs on **70%** of open days and lower weekly waste in at least 2 shops.

Lumé | Developer — 2026

Shoe shopping app for women, built with Flutter and Firebase as a team project.

- Built the purchase flow (search, cart, checkout, code scanning, order success) and loyalty points in Flutter with Firebase, in a team of 4 over 2 weeks.

Evaline Home | University Project — 2026

E-commerce website for a luxury furniture brand, built for a university course.

- Launched a **40+** page product catalog for a luxury furniture store on WordPress and Elementor, structured as a marketplace.

EXPERIENCE

AIESEC in Vietnam, HCMC Branch

Global youth-led organization running leadership programs and international exchanges.

Content Executive — Jan 2026 to Jul 2026

- Ran the agenda for Activation Day with **190** in-person and online attendees, building the program and speaker materials as Agenda Manager.

Brand and Public Relations Executive — Apr 2025 to Jan 2026

- Reached **30,000+** students and drove **60+** sign-ups with a student ambassador and KOL/KOC campaign of **80+** posts.
- Kept **1,624** PR accounts on brand by reviewing each one in Podio against the AIESEC guidelines.
